INFLA TABLE AWN INGS

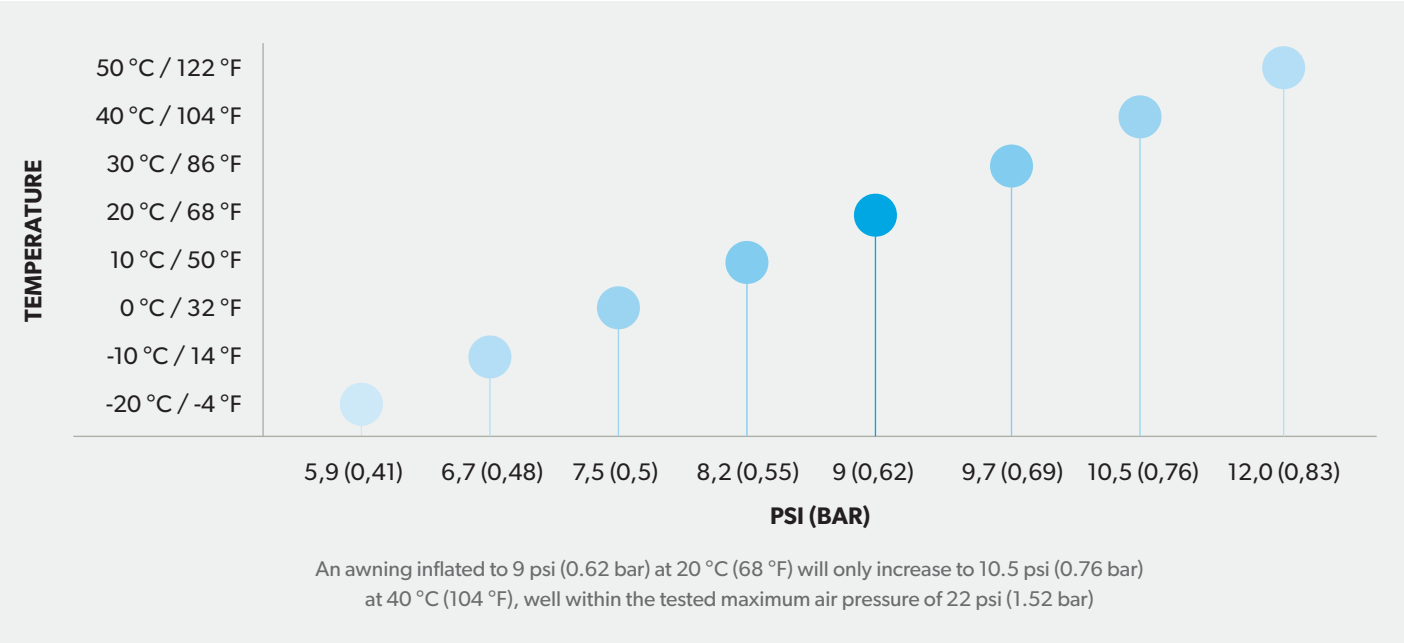

DOMETIC INFLATABLE AWNINGS

OUR INNOVATIVE AIR FRAME HAS REVOLUTIONISED TOURING

The patented AIR Frame technology in Dometic inflatable awnings will transform your touring experience. Conventional steel and fibreglass awning poles are replaced with interlinked inflatable AIR Poles, enabling you to inflate the entire awning from a single external point. Conveniently, the AIR Frame is always attached to the awning for a quick and easy setup. And not only is the AIR Frame extremely strong, it can flex in the wind too, so you'll never

break or bend a pole. Plus, with no metal or fibreglass poles there's nothing to damage your caravan, as the AIR Poles simply rest against your vehicle with no other attachment needed. For optimal awning performance inflate the awning to 9 psi. Each awning comes with a Downdraught hand pump and for maximum convenience, simply plug in the optional Gale 12 V pump.

AIR FRAME PRESSURE IN RESPONSE TO DIFFERING AIR TEMPERATURES

SINGLE POINT INFLATION

Individual AIR Poles are linked together allowing the entire awning to be inflated from a single external inflation point. The entire AIR Frame is easily deflated through quick release deflation valves at the base of each leg; as each AIR Pole is connected there is no need to deflate each AIR Pole individually. So, as well as being the easiest awnings to set-up, the user-friendly Dometic awnings are also the easiest to take down.

Deflation valve

For optimal performance
inflate to **9 psi / 0.62 bar**

Inflation valve

AIR FRAME CONSTRUCTION

The AIR Frame is incredibly durable, each AIR Pole is made of a strong TPU inflation tube zipped into a reinforced laminated oxford polyester/PE cover, which is then zipped into a heavy-duty polyester sleeve in the awning. Tested to 22 psi / 1.52 bar, the AIR Frame system best functions when inflated to 9 psi / 0.62 bar.

RELIABLE TECHNOLOGY

Dometic AIR Poles are well protected and require no maintenance. Inflatable awnings are considerably lighter, and with no poles to snap, the AIR Frame is also far more durable than conventional poles. The AIR Frame is suitable for both hot and cold climates as well as extreme changes in temperature.

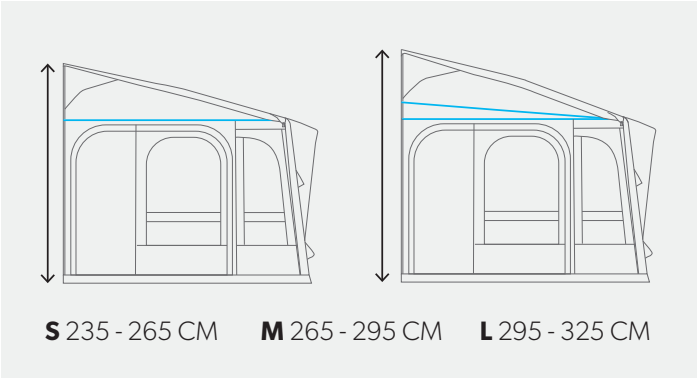

NEW FEATURES FOR 2021

MULTI HEIGHT SYSTEM Patent Pending

DOMETIC HEIGHT ADJUSTABLE AWNINGS ENSURE EXCEPTIONAL VEHICLE FITMENT

Our new Multi-Height System delivers the most versatile inflatable awnings ever. Rather than strictly being suited to either a caravan or motorhome, this ground-breaking feature enables the same awning to fit to a variety of leisure vehicles, with the keder connection now achieved at a multitude of heights within an expanded range.

We know that real-world experience is everything, and thanks to our latest awning innovation these are our best performing awnings ever too. The Multi-Height System means your Dometic awning will be easier to pitch on uneven ground and perform better in adverse conditions, effectively shedding rainwater and fitting closer to the vehicle side.

HOW DOES IT WORK?

The operation couldn't be easier; simply unzip the gusseted awnings side panels, peg the awning down to fine tune fitment, then close the internal zips to hide any excess material. Once you've set the Multi-Height System for the first time, you are free to set the awning down and pitch again and again without needing to re-adjust. For convenience, the adjustable zipped gussets are positioned just above the zip-out side panels, meaning fitting and adjusting the awning to your caravan can be achieved without the need for a step or ladder.

DESIGNED FOR TOURING CONFIDENCE

As all experienced caravanners know, selecting the correct size awning for your vehicle is essential to maximise the living space of your pitch and enhance your holiday. The Multi-Height System makes finding your perfect awning easier than ever before, size S awnings connect to vehicles with a connection height range of 235 – 265 cm, size M from 265 – 295 cm and size L from 295 – 325 cm.

DUAL KEDER

Fitted to all new Dometic inflatable caravan awnings, premium dual awning keder. For 2021, 5 mm and 7 mm keder has been installed as standard, allowing a seamless connection to both conventional caravan awning rail and motorhome cassette awnings. This innovative design feature means Dometic inflatable static awnings are equally suited for use with caravans, motorhomes and panel vans. Dual keder reduces model complexity and affords you the freedom to change vehicles without necessarily changing awning.

APEX VENTILATION

Experience greater comfort with our new weather protected apex ventilation. Fitted to all new Dometic inflatable caravan awnings, triangular apex ventilation panels increase air circulation and improve comfort inside the awning. These auxiliary ventilation points, found in the top corners of each inflatable awning, conveniently allow air to escape the awning as it rises and warms. Importantly, this feature helps to regulate the interior temperature in hotter climates and effectively combats condensation for early and late-season tourers.

AWNING KEY FEATURES

INNOVATIVE FEATURES TO ENHANCE YOUR TOURING EXPERIENCE

AIR FRAME™

Single Point Inflation AIR Frame awnings inflate entirely from just one external inflation point, creating an exceptionally strong structure.

QUICKPITCH™ GUYING SYSTEM

Heavy-duty straps can be pegged out in seconds. Peg the bottom strap taut and adjust the top buckle to apply tension.

DUAL-PITCH™ ROOF SYSTEM

Effectively deflect wind and shed rain water efficiently to prevent puddling on the roof and enhance performance.

SABRELINK™ READY

Attach up to three lights on the front and centre AIR Poles. Switch the lights on/off and adjust the brightness remotely. Also suits poled awnings.

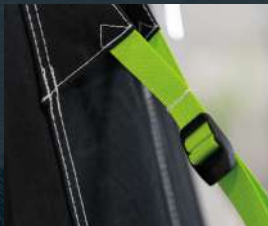

LIMPET™ READY

Pre-punched holes ready to attach the rear wall of the awning to the vehicle using Limpet Fix technology.

AWNING MATERIALS

HIGH QUALITY FABRICS TESTED FOR DURABILITY

WATERPROOF
Tested to 200L/m² per hour to ensure that you are kept dry.

WEATHERSHIELD™ ALL-SEASON

Ultra-rugged and UV resistant All-Season material, perfect for touring in warmer climates and for use on a seasonal pitch. The fully breathable fabric is constructed to handle extremes of weather and has been tested in the wettest regions of Europe and the sunniest parts of Australia to ensure it never lets you down.

WEATHERSHIELD™ PRO

The iconic fabric used extensively throughout the awning range has proven quality in diverse environments. With the look and feel of a traditional fabric, but weighing far less, Weathershield™ Pro continues to be the definitive choice for tourers the world over.

WEATHERSHIELD™ 150D

Extremely light and easy to handle, Weathershield™ 150D promises super-fast set-up and take-down every time. Highly durable and weather-resistant too, this lightweight material offers great value with no compromises.

WEATHERSHIELD™ PVC

Constructed with 400g/m² PVC, this super tough awning material is waterproof, long-lasting and easy to clean. Developed for winter touring, Weathershield™ PVC is rated to -20 °C, more than a match for even the most extreme snowy conditions.

An Ultraviolet Protection Factor (UPF) denotes how much solar ultraviolet radiation is reduced when passing through fabric. Dometic awning material allows only 1/50th of ultraviolet rays to pass through, ensuring you're protected and kept cool.

ACE AIR PRO

PERFECT FROM EVERY ANGLE

With its timeless style, expansive 3.25 m depth and integrated inflatable canopy, you'll be the envy of the touring park wherever you pitch up. Large full-height windows and skylights offer beautiful views during the day and a starry vista at night.

INTEGRAL INFLATABLE CANOPY
Integral inflatable wet weather canopy with apex mesh ventilation.

EXTRA DEPTH
Generous 3.25 m depth creates a spacious awning interior.

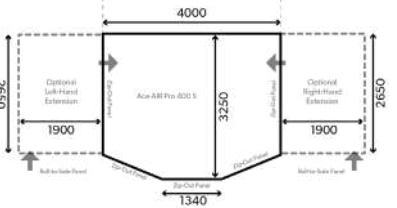

MULTI-HEIGHT SYSTEM
Height adjustable awning technology ensures fitment across multiple vehicle types.

ACE AIR PRO 400 S

- Width: 400 cm
- Depth: 325 cm
- Weight: 21.9 kg

/ RALLY PRO
/ RALLY

POL ED AWN INGS

RALLY PRO

FULLY ADJUSTABLE FOR A PERFECT PITCH EVERY TIME

Ideal for short stays away or for an extended vacation, a comfortable 2.5 m depth ensures there's plenty of room for a table and chairs. While the Rally's adjustable front poles ensure a perfect pitch every time.

FRONT UPRIGHT POLES

DynaLite aluminium front upright poles can be adjusted for uneven ground.

ZIP-OUT SIDE PANELS

Interchangeable zip-out side panels allow the fitting of an annexe and the reversal of the side doors – from the back of the awning to the front.

ROLL-TO-SIDE FRONT PANELS

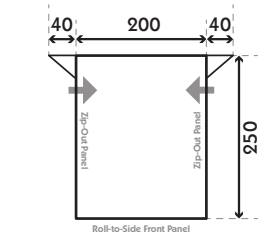

The front panels can be rolled to the side opening the front up, or alternatively zipped halfway down to let air in without compromising security.

INFLATABLE WINDBREAKS

THE WORLD’S FIRST

Never has a windbreak been so easy to set-up. Simply peg and pump to enjoy the AIR Break's free-standing protection. You can even connect it to the front of your Dometic awning to create a fully enclosed area – great for keeping dogs in.

Barcode. 5060444793635

CARRY BAG
Ref. 9120000438
Barcode. 5060540046147

DOWNDRAUGHT 2.2

2.2 l one-way manual hand pump supplied with all Single Point Inflation Air awnings.

Ref. 9120000439
Barcode. 5060444794595

LIMPET™ FIX KIT

An ingenious way of attaching the rear wall of your awning to your vehicle.

Ref. 9120000424
Barcode. 5060444793604

LIMPET™ HOLE PUNCH
Ref. 9120000425
Barcode. 5060444793611

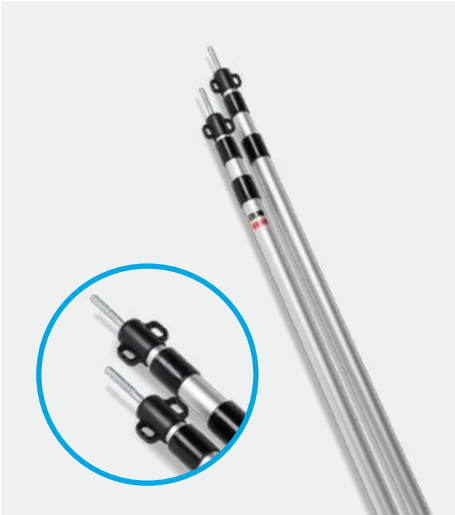

NEW
VERANDA POLE

Adjustable aluminium veranda pole allows you to open your awning windows to your desired position, letting in fresh air when you need it.

Ref. 9120001210
Barcode. 5060646169009

DELUXE CANOPY POLE SET

Aluminium construction prevents corrosion and reduces weight. Fully adjustable canopy pole set suits canopies from 90-230 cm high.

Ref. 9120000436
Barcode. 5060646164219

DELUXE REAR UPRIGHT POLE SET

Adjustable aluminium rear upright poles create a seal between the awning bumper pads and the motorhome.

Ref. 9120000415
Barcode. 5060444793628

CARRY BAG
Ref. 9120000416
Barcode. 5060540042613

REAR UPRIGHT POLE S-M / L

Improve your awning's fit to the motorhome and reduce noise in windy conditions. These adjustable aluminium rear upright poles create a seal between the awning bumper pads and the motorhome body.

S-M Ref. 9120001211 Barcode. 5060646169016	L Ref. 9120001212 Barcode. 5060646169023
---	---

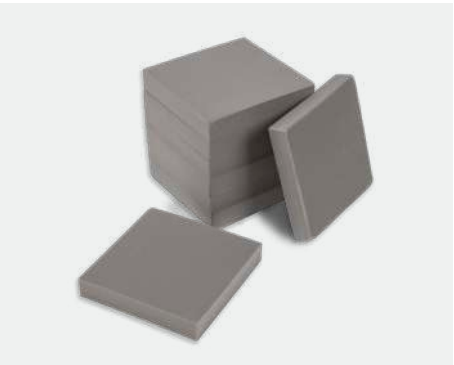

AWNING DE-FLAPPER AC0378 PACKING PADS CE7300

Helps stop your awning flapping in the wind.

Ref. 9120000423
Barcode. 5060540040145

Fills the gap in-between the end of the awning AIR Poles and your vehicle.

Ref. 9120000426
Barcode. 5060444792164

AWNING RAIL STOPPER

Simply screw into your awning rail to prevent awnings sliding along the rail. Twin pack.
