UNIQUE TO DOMETIC

INNOVATIONS DEVELOPED EXCLUSIVELY FOR DOMETIC CAMPING TENTS

REAR STORAGE AREA Patent Pending

As family campers know, keeping the living space of the tent tidy is essential when staying put for any length of time. The Dometic storage area provides the solution to camping clutter and keeps your living space free for relaxing with friends and family.

Unique to Dometic camping tents, the rear storage area is located behind the inner tents of each model and is ideal for storing luggage, clothes and other bulky items. Access to this area is through the zipped door in the back of the inner whilst the structure of the space is maintained with aluminium struts and Quick Pitch straps.

INNER TENTS Patent Pending

Sleep soundly when camping with a Dometic tent. Our blend of SleepTite darkened material, breathable polyester or polycotton and sizeable door mesh create an environment conducive to a great night's sleep. There's no compromise on space either, Dometic inner tents afford each person at least 70 cm of width and 225 cm of depth, meaning there's plenty of room to stretch out and experience the same comfort you would at home.

Smart external storage and stuff pockets for the inner tent doors help to keep the tent tidy in the day whilst the elastic securing loops and valance create a near seamless connection between the inner and tent flysheet.

TENT FOLDING LINES Patent Pending

For novice and experienced campers alike, packing your tent away at the end of a trip can be a challenge. To combat this, Dometic camping tents feature small fabric Glow orange tab markers which highlight the folding lines point. Simply fold the back of the tent to this marker which will then give the ideal width to be able to roll your tent away to the ideal size to fit back in the bag.

CLIMATE CONTROL VENTILATION

High and low level ventilation located on the sides and rear of Dometic camping tents reduces condensation and improves comfort.

Redesigned to incorporate lightweight aluminium support poles, the mesh ventilation points provide plenty of relief on hot summer days and the ability to keep warmth inside the tent when closed.

ATTENTION TO DETAIL

INTRICATE CAMPING FEATURES DESIGNED TO MAKE ADVENTURE EASY

DOOR TIE BACKS

Roll back your front door and mesh panel quickly and more securely than ever before. Dometic tents feature heavy duty webbing straps with a quick-release clip for superior convenience and performance.

ZIPPED BLINDS

Zippered window blinds with easy-store pockets provide endless adjustment and privacy when you need it.

REFLECTIVE QUICK PITCH GUYING SYSTEM

The best guying system made better. Dometic Quick Pitch straps feature 2 lines of reflective stitching for extra visibility when navigating around the tent at night.

DURABLE PEGS

In addition to our versatile plastic pegs, Dometic tents include 10 extra-tough Rock Pegs. These additional pegs are included to help you pitch on stoney and uneven ground, enabling you to stay longer and thrive in any environment.

CABLE ENTRY POINTS

Keep your electronics charged up when enjoying the outdoors in a Dometic camping tent. Cable entry points are included as standard on 3 sides of our larger models and on 2 sides of the FTC range, ensuring you stay in touch with the outside world whilst you get lost in nature.

CARABINERS

Add convenience to your outdoor holiday with Dometic. Durable carabiners hanging centrally in the porch and living areas of our camping tents are ideal for hanging lights, electric fans and other small camping accessories.

KEY FEATURE ICONS

INNOVATIVE FEATURES TO ENHANCE YOUR CAMPING EXPERIENCE

WATERPROOF

Tested to 200L/m² per hour to ensure that you are kept dry.

CLIMATE CONTROL

High and low level vents create airflow to ventilate your tent. Ventilation helps prevent condensation and improves comfort.

ZIPPED BLINDS

Zipped window blinds with easy-store pockets provide privacy when you need it.

SLEEP-TITE DARKENED BEDROOMS

Inner tents use dark materials to help block out early sunlight for a good night's sleep.

WIDER BEDROOMS

On average, Dometic bedrooms are the widest available, ensuring a comfortable night's sleep.

QUICKPITCH™ GUYING SYSTEM

Heavy-duty straps can be pegged out in seconds. Peg the bottom strap taut and adjust the top buckle to apply tension.

WARDROBE POLE READY

Simply clip-in to either the left or right hand inner tents to add hanging storage to your Dometic tent.

SABRELINK™ READY

Attach up to three lights in the living area. Switch the lights on/off and adjust the brightness remotely. Also suits poled tents.

CABLE ENTRY POINTS

For added convenience, all tents have zipped cable entry points for 12V and mains cable access.

WEATHERSHIELD™ TC

High quality polycotton material allows the tent to breathe, reducing condensation and regulating the interior temperature on hot days.

WEATHERSHIELD™ 150D

Extremely light and easy to handle. Highly durable and weather-resistant too, this versatile polyester offers great value with no compromises.

TENT FOLDING LINES

Glow folding lines make setting down and folding the tent away a simple process.

DOMETIC AIR FRAME

OUR GROUNDBREAKING INNOVATION HAS REVOLUTIONISED CAMPING

Dometic inflatable tents will transform your camping experience. Our reliable Air Frame system uses multiple inflation and deflation points for the most straightforward, time-saving tent set-up and takedown.

The Dometic Air Frame is constructed with durable, oversized Ø12 cm Air Poles, which create an extremely strong yet flexible structure. Each tent comes with a manual hand pump or for maximum convenience, simply plug in the optional Gale 12 V pump.

Each Air Pole is made of a strong TPU inflation tube that is zipped into a tough reinforced polyester cover. This is then zipped into a heavy-duty sleeve in the tent. The result is an extremely well protected, durable Air Frame which requires no maintenance.

A man with long hair and a beard, wearing a blue baseball cap, a white t-shirt, and a blue patterned necklace, is sitting cross-legged inside a tent. He is smiling and looking towards the camera. The tent's interior is made of a light-colored, wrinkled fabric. A blue sleeping bag is spread out on the ground in front of him. A pair of grey and blue hiking shoes is visible in the bottom right corner. The text 'TECH DA' is overlaid in large, white, bold, sans-serif capital letters across the center of the image.
